Philippine Mining Service Corporation (PMSC), through the years since its inception, has been staunchly and continuously adhering to the highest degree of environmental compliance in its pursuit towards sustainable mineral operation. PMSC was recently honored with the prestigious Presidential Mineral Industry Environmental Award 2023, presented and awarded by His Excellency President Ferdinand R. Marcos, Jr. at the Malacañang Palace on October 16, 2024.

With this distinct honor, PMSC will remain steadfast and is even more determined to lead the way in responsible mineral processing, both for its customers locally and internationally, and for all its stakeholders. The company is committed to continue delivering quality products while promoting environmental stewardship for the benefit of future generations.

We extend our gratitude to our employees and the communities of Alcoy and Dalaguete, Cebu for their combined effort and support, which have earned us this highest distinction.
